Minutes M.D. Council of Starland, No. 47

The regular meeting of the Council of the Municipal District of Starland, No. 47, was held at Morris on Tuesday Dec. 10th, 1946 at 10:00 a.m. All members present.

The minutes of the last meeting were read and approved, on motion of C. H. Moore, seconded by J. E. McLean, and carried that the report be accepted, and that J. E. McLean be thanked for his advice.

Moved by C. H. Moore and carried, that subject to the approval of the Mayor of Municipal Affairs the N.E. 20-15-44 be sold to C. James, Drumheller, for the sum of \$500.00 cash, and that the necessary By-Law be passed.

By-Law No. 78 was accordingly given three readings, and passed unanimously.

Moved by C. H. Moore and carried, that an expression of sympathy be sent to District Engineer, J. McQueen, on his recent bereavement.

Moved by Dep. Reeve Carter and carried, that the sum of \$250.00 be accepted as full payment for Seed Grain and Feed and Fodder advanced to C. H. Moore.

Moved by Dep. Reeve Carter and carried, that a cheque for \$382.75, Tax Sales Surplus No. 27, 27-28-17-4, be forwarded to the Canada Life Assurance Company, as ordered by the Council.

The following Tax Arrears Consolidation agreements were accepted on motion of C. H. Moore, viz.: C. P. Almond, \$15, 14-20-17-4; Duncan Glin, \$15, 11-21-18-4; T. W. Hunter, \$15, 20-28, S.W. 20 and N.E. 30-31-18-4; C. J. Chambers, N.E. 22 and N.W. 22-23-18-4.

In connection with a request from the City of Drumheller to purchase 5000 yds. of gravel, it was moved by Dep. Reeve Carter and carried, that Reeve Waters and C. H. Moore inspect the gravel pit at Drumheller, and that they contact the city authorities.

Moved by C. H. Moore and carried, that a grant of \$25.00 be made to Wm. Gibbon's Garage, and that the necessary By-Law be passed.

By-Law No. 77 was accordingly given three readings and passed unanimously.

Moved by C. H. Moore and carried, that the Reeve and Secretary be authorized to sign, on behalf of the Council, Memorandum of Agreement with the Minister of Agriculture re Agricultural Services.

Moved by Reeve Waters and carried, that wages paid to garage employees and patrol operators be set at \$5 per hour, as from December 15th, 1946.

To our many friends we offer

Hearty Christmas Greetings
May the New Year be for you and yours a happy and prosperous one

Christmas Greetings

Lathbridge and Greeting
Letter.

As each Yuletide rolls around, we again are reminded that peace on earth and goodwill among men is not impossible of attainment, but an ideal toward which we are or should be constantly striving. Each individual has his part to play.

The staff of the Dominion Experimental Station at Lathbridge feel that they are making a contribution toward the peace and goodwill among men. Throughout the year, it has been their work to gain information so that it could be given to the people. It is thrilling to learn from Mother Nature some of her secrets, but it brings even greater satisfaction to see that knowledge on to those who can use it for their good.

We have greatly enjoyed contributing what we have had to give.

The agricultural experimentalists feel that it has been their part in promoting peace. As he discovers new things or better ways, he makes it possible to work more easily in the land.

Being in harmony with one's environment is a fundamental element of peace. A contented and prosperous people are a basis of peace that will bring lasting peace on earth and goodwill among men.

So may we, you, find this Christmas time, give to us, because we feel that we have given ourselves to others that may make their lives more full. May all have a Very Merry Christmas. That is our wish.

The United States government is spending \$80 million this year in supporting potato prices. The government has purchased 40 million bushels of excess production.

Women's Missionary Society

The December meeting of the W.M.S. was held in the United Church annex on 12th inst. Mrs. Peter Thompson, President, presided, and read the Scripture portion.

Mr. David, who was our guest at this meeting, led in prayer. The meeting of Cold Lake, Alberta, wrote a fine letter of appreciation and thanks for the help sent to the hospital by this W.M.S. Auxiliary through the supply secretary Mrs. Moore. Mrs. Moore had made the purchase supplies and made the contents of this letter after she went to Calgary to reside. We thank Mrs. Moore for carrying on at her post throughout the year, despite many handicaps.

As this was the annual meeting the officers for 1947 were elected as follows:

President—Mrs. Peter Thompson
Vice-President—Mrs. C. Grant
Sec.—Mrs. M. G. Heston
Christianity Secretary—Mrs. Ben Thompson
Associate helper's Secretary—Mrs. One Love

Temperance and Christian Citizenship Secretary—Mrs. M. Swaine
Prong Sec.—Mrs. C. Grant
Community Friendly Secretary—Mrs. C. Grant

Supply Sec.—Mrs. Peter Thompson
Music—Mrs. Grant
The W.M.S. has had a most successful year financially, as well as in interest and enlightenment regarding the Missionary work at home and abroad.

Mrs. M. Swaine presided over the election of officers, and also installed these officers by a prayer of consecration. In the Missionary work of this church and community.

Mrs. M. Swaine and Mrs. C. Thompson were hostesses and served a delicious tea during the social hour at the close of the meeting.

Mrs. C. S. Heston, Sec.

Suffering China Calls
to Canadian Farmers

WAR has spread wreckage and suffering among the 500,000,000 people of China's Pacific neighbor.

Blasted from farms and villages, millions of Chinese families are homeless, hungry and in rags, dying daily from starvation and disease. China was first to feel the Pacific onslaught. For eight terrible years from July, 1937 to 1945, China heroically braved the aggressor's bombs. Two years longer than any of her allies!

Farmers Call to Farmers
To-day, China presents a heart-rending spectacle to Canadians mercifully spared the ravages of enemy guns and bombs. And especially to Canadian farmers!

About 83 per cent. of China's 500,000,000 people are peasant farmers. To the scourge of Japanese planes and artillery have been added, in many districts, food or drought, and shortage of seed grain. Besides the need for food, clothing, medical supplies, hospital equipment, there is urgent need for reconstruction of farms and homes.

Canada's Aid Essential
During the war, Canadians, through the Chinese War Relief Fund, sent to China some \$2,654,000 in money and over 1,464,000 pounds of used clothing, valued at some \$2,909,000. But the aftermath of war can be more terrible than the war itself. The world-wide work of the United Nations Relief and

Rehabilitation Agency (UNRRA) ends March 1st in China. The burden will fall on voluntary agencies. So Canadian Aid to China (formerly The Chinese War Relief) is making a national appeal. This is an urgent call to Canadian farmers to support this effort.

How YOU Can Help
To make it more convenient for YOU to participate, all Elevator companies have been authorized to receive donations of part of grain deliveries as Aid to China.

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to CANADIAN AID TO CHINA. Your Agent will make out a ticket in the name of CANADIAN AID TO CHINA for your donation. Official Receipts will be forwarded to you from your Provincial Headquarters for income tax purposes.

No check to write, no cash to pay, no mailing to do. It's as simple as that!

CANADIAN FARMERS, BE GENEROUS! CHINA, A GOOD NEIGHBOR, NEEDS YOUR HELP!

This is the only national appeal to be made in Canada during the next twelve months for Chinese relief.

"RAIN-MAKER" ALL SET FOR NEXT SPRING

Saskatchewan Man Believes He Was Responsible For Record-Breaking Rain Of 1945

REGINA, Jan. 26.—Some drought-weary farmers in the southwest corner of Saskatchewan believe the "rain-maker" machine operated by 35-year-old Donald Johnson of Regina, was responsible for the record-breaking rains which insured the bumper crop of 1945.

The slight, unmarried army veteran, after dismantling the machine he first put together in 1937, getting it ready for next spring.

He says if given facilities to operate it he can banish drought, bring rain with the machine's "radio" and gravity multiplied power of gravitation attraction to the moon's influence.

Johnson says the electrical power from the moon draws the moisture from the earth's electro-magnetic field, causes electrical changes in the atmosphere and when clouds are overhead, attracts moisture and thus rain. The machine has an effect over at least a 100-mile radius.

The machine has a solid steel frame and incorporates two horseshoe-shaped magnets. One of the magnets is fixed and the other moves in a semicircle about it, creating a field which produces rain. Johnson says the machine is being influenced in the operation of the spring by the moon's position. A Regina Technical school graduate has spent \$100 on the machine, and Johnson says he will want only his expense in return for operating it. He says he is not completely through the three patent processes.

Made In Glasgow

For 100 Years Firm Has Exported Fine Wares From Arals

Arals, a small town in the north of Scotland, is the home of a firm which would think it was a disgrace to follow it to be a Christie hat or a top hat. It is a firm which would think it was a disgrace to follow it to be a Christie hat or a top hat. It is a firm which would think it was a disgrace to follow it to be a Christie hat or a top hat.

Thousands of servicemen bought their Arals from Glasgow during the war. The firm has been making hats for about 100 years, and exporting them to the Middle East.

The Arals, which they are better than the ones they can make themselves, are the best hats in the world.

The Arals are not only used for warmth, but as a sand-storm screen. The Arals take the folds into a feature in the upper part of the hat, and the Arals take the folds into a feature in the upper part of the hat.

The Arals are not only used for warmth, but as a sand-storm screen. The Arals take the folds into a feature in the upper part of the hat, and the Arals take the folds into a feature in the upper part of the hat.

Told Best Story

Veteran Of Zulu War Put Modern Soldiers In Shade

"Two days without food or water," announced the Commandant to a group of modern soldiers in the field.

"That's what we had," agreed a middle-aged man; "but how would you like to go without food or water for three days?"

"Call yourself soldiers!" roared a very old man who had bobbed up from the rear. "Fah! When I was in the Zulu war a spear knocked me down and I was left to die."

"You must have been very brave," said the Commandant.

"Very," answered the old man, "and very," laughed the "Financial Post."

ANYTHING BUT TRIVIAL

The Washington Post says it is a pathetic commentary on contemporary life that the nation's attention is being drawn to the trivial and to ignore what is the human situation. It suggests that all our sensibilities have become extremely dulled.

GERMAN INVENTOR OF V-2 ENVOIS TRIP TO MOON

Thinks It Is To 10 To 20 Years Yet

May Go Around World In Rocket

WERNER VON BRAUN, 74.—A titled young German schoolboy dreams of "going to the moon." Inspired studies leading to development of the V-2 rocket.

Partial lifting of a light curtain of military secrecy has disclosed the nature that the V-2's principal inventor, Dr. Werner von Braun, has in this country as a civilian consultant in the Army's guided missile research program.

The long-time technical director of Germany's Peenemunde proving ground on the Baltic Sea has headed the group of Germans engaged in rocket studies at Fort Bliss, where the V-2s have been proved.

In the past few weeks the Army has permitted with Von Braun to discuss the production of the V-2 was too small at the time to have delayed the Allied invasion of Germany. It later was stepped up to 400 a month.

One-third of the tons of White Sands have been failures, against 5 tons of successes. The country is largely due to the age of the reassembled rockets and rough handling in shipment to this country.

With facilities available at Peenemunde, Von Braun believes he can now have put a rocket on the moon in 10 years.

"Man could ride the V-2 now," Von Braun says, "if only the rocket were how to get him down."

Dr. von Braun, a brilliant design engineer, told newsmen he thought it possible that in 10 to 20 years war may be a constant threat to mankind.

Princess Elizabeth Has Ties For Fashion

Asks To Remodel

Some Of Queen's Clothes

LONDON.—Princess Elizabeth, whose wardrobe is one of the most famous of clothes worn by her mother when the Queen (reigned Canada in 1935).

"Elizabeth has a good, practical mind," said a young woman who frequents the Queen's wardrobe, "and she is a great success. She can always have a good idea of what to do."

Princess Elizabeth, who is now 20, is a very fresh young girl. She turned out looking very fresh in a purple dress reconstructed from one her mother's. She has a good idea of what to do.

As she approaches maturity, Elizabeth is becoming more and more like her mother. She is a very fresh young girl. She turned out looking very fresh in a purple dress reconstructed from one her mother's.

Hearing One Voice Over Radio Would Astonish Many People

AMERICAN COMMISSIONERS REGARD THE BUREAU AS A SCIENTIFIC AND FRUITFUL

CANBERRA.—An Australian mission has gone to Japan to investigate the Japanese peering machine of the Japanese.

The Japanese peering test no longer costs but the commission reports that they are still in the business.

Japanese methods were scientific and profitable but some of their operations were regarded as illegal. The test was found to be a waste of money.

Mothers ships attended the test, supplying food and fuel. The test was found to be a waste of money.

Common Phrases

Of Everyday Speech

Their Peculiar Origin And Other Interesting Facts

Why are we interested in the numerous common phrases which are heard every day? Many of them are just a curiosity, but others may be traced to exceedingly interesting sources.

For instance, we speak of giving the "cold shoulder" to someone, meaning that the person is not welcome. This phrase had its origin in a famous old French custom.

When a guest in a French house in the Middle Ages had overstayed his welcome, he was served with a cold shoulder of mutton, instead of the hot meat usually served.

The phrase we use in praise of someone, "He is a bird," comes all the way from ancient Egypt, and its author was the king of that country, who lived four hundred years before Christ.

Another old saying, "It takes time to make a man," is traced to the days of Queen Elizabeth. It is said that a poor beggar passed a tailor's shop and begged for some assistance. The tailor told him to wait.

When we speak of the first of a married life as the "honeymoon," we go straight back to the old Norsemen, for it was a custom among them to drink to the new bride for the first month of their married life.

We also speak of a woman "giving the man the mull," when she refuses to marry him. This is a slang phrase, as may be supposed, but comes directly from our Pictish forefathers. In some games women were half girls, or mulls, and when a woman was half mull, she was not to be married.

The saying, "It is a feather in his cap," has sprung from an old custom in the military service. When a soldier was killed in battle, his cap was placed on a pole, and the soldier was said to have a feather in his cap.

As for the phrase, "apple pie or no pie," we must go back to the famous story of the blind men and an elephant. One man touched the elephant's tail and said, "It is like a whip." Another touched the elephant's side and said, "It is like a wall." A third touched the elephant's ear and said, "It is like a fan." A fourth touched the elephant's leg and said, "It is like a pillar." A fifth touched the elephant's back and said, "It is like a roof." A sixth touched the elephant's head and said, "It is like a mountain." A seventh touched the elephant's tail and said, "It is like a whip." An eighth touched the elephant's side and said, "It is like a wall." A ninth touched the elephant's ear and said, "It is like a fan." A tenth touched the elephant's leg and said, "It is like a pillar." A eleventh touched the elephant's back and said, "It is like a roof." A twelfth touched the elephant's head and said, "It is like a mountain." A thirteenth touched the elephant's tail and said, "It is like a whip." A fourteenth touched the elephant's side and said, "It is like a wall." A fifteenth touched the elephant's ear and said, "It is like a fan." CANADIAN NATIONAL**Season's Greetings!**

Delta, Alberta
December, 1946.

Dear Friends:

It is with a feeling of gladness and optimism that we send you Season's Greetings at this time—gladness that the world once more is at peace, and optimism in the future of our district and our country, as we gear down to our normal peacetime pursuits.

We have been very pleased at the opportunity of serving you during the past year, and here you have found our service satisfactory in all respects. We have had our difficulties as you have, because of manpower and material shortages, and we appreciate your friendly patience with any shortcomings on our part.

We know that 1947 is going to be a banner year for all of us, and hope that you will continue to favor us with your patronage.

The very best wishes for a Merry Christmas and a Bright and Happy New Year to you and your loved ones.

Sincerely,

W. D. FITZGERALDS & SON

TO OUR CUSTOMERS

A Patrons' Dividend will be paid to our customers on deliveries of wheat, oats, barley, flax and rye made to our elevators during the crop season July 1st, 1946 to June 30th, 1947.

IN ADDITION, it is our intention to pay a Patrons' Dividend on deliveries of wheat, oats, barley, flax and rye to our elevators during the present season if the earnings of the Company will permit.

The Delta Times
Has Pleasure in Wishing A Happy Xmas and A Prosperous New Year To all its Readers.

THE SECOND CHRISTMAS
While, perhaps, to a great many people, the world appears to be in a turmoil, the second Christmas following the termination of the Second Great War gives promise to be a season of rejoicing.

So far as Canada is concerned, the men of the armed forces are practically all back home with their families, while of those who married abroad, the last of their wives and children are either now here or shortly will be. There is a plentiful supply of money in the country, and the stores are full of goods to purchase. It is true that in some lines there are shortages, particularly in basic requirements and in textiles, such as shirts, socks and stockings and wearing apparel generally, as well as some household furnishings—bed linen, curtains, blinds, and the like.

We may be thankful, however, that in this country we are so fortunate as to have been spared the vast destruction and misery that has been wrought in the countries over which immense armies struggled for years. Even so, any thoughtful person can realize that the recurrence of war on so enveloping a scale means nothing less than destruction everywhere, and a definite setback to the progress of mankind.

Therefore, the news that the delegates to the recent United Nations Assembly have wound up their deliberations in an am-

able and friendly spirit, may be welcomed as a sign that slowly, but surely, we are moving forward to an understanding between the nations and to a realization of the futility of universal bloodshed.

At this season, as we celebrate the birth of Christ, Prince of Peace and Goodwill to all Men, let us rejoice; eat, drink, and be merry in the hope that those who are entrusted with the destinies of their fellow men will use their power and reasoning to ensure that conciliation rather than aggression occupies the minds of men; that in place of fratricidal strife among nations, we at last attain Peace upon Earth.

D.F.C. Capt. Henry Brunner, 1st Armoured Brigade, and Major Myr Morrison, C.W.A.C.

Comparatively mild weather on Tuesday and Wednesday followed a quite unpleasant week-end, during which another two inches of snow fell and it grew steadily colder, reaching down to 22 below zero early Monday morning. The rising temperature of Wednesday culminated in a rain shower between 7 and 8 a.m., which left sidewalks and roads in a dangerous condition.

Wedding Bells**Cole—Mosspop**

A pretty wedding was solemnized in the home of the Delta United Church on Monday afternoon, December 16, at 3 o'clock, when Mary, youngest daughter of Mr. and Mrs. J. Mosspop, of Craigny, became the bride of Mr. Hubert Cole, only son of Mr. and Mrs. E. H. Cole, of Saskatoon. Rev. E. Davidge officiating.

The bride wore a blue ensemble costume, and was attended by Mrs. Wm. Watson (former English bride), while Mr. Wm. Mosspop, of Craigny, acted as groomsmen.

Following the ceremony, the party motored to Craigny, where a reception and dinner was held at the home of the bride's parents, attended by immediate relatives and friends. Later, the happy couple left to spend a few days as guests at the Queen's Hotel, Delta.

The many friends of this popular young couple will wish them every happiness and success in their future married life.

Card of Thanks

I wish to thank all my neighbors and friends who so kindly remembered me, while a patient in the Hanna Hospital.

Walter W. Scott.

It's not change of face we need, nor change of pace, but change of heart.
